Grooming Basics – Slope Grooming for Beginners

Your introduction to the world of snow groomers.
Take your first step into the world of slope grooming –
we'll show you how to safely prepare perfect slopes
using modern snow grooming machines.

You and 500 horsepower?

Sounds like a cool winter job!

Interested? Then you've come to the right place! In our course “**Grooming Basics – Slope Grooming for Beginners**”, you'll get a solid introduction to the fascinating world of slope grooming. Discover the technology, elegance, and power behind modern grooming machines – and learn how perfectly groomed slopes are made.

Whether you're new to the field, a seasonal worker, or a winter sports enthusiast with a passion for machinery – our **theoretical training** gives you the knowledge and confidence you need to safely and responsibly operate a grooming vehicle.

Ski resorts benefit too: we prepare new operators thoroughly for the winter season – with hands-on, clear, and professional training.

Course content includes:

- ✓ **Technology and operation**
of modern snow grooming vehicles
- ✓ **Fundamentals of slope grooming**
and snow physics
- ✓ **Safe and resource-efficient driving techniques**
- ✓ **Key safety aspects**
for operators and slope users

Our focus: careful machine handling, safe operation, and a solid understanding of snow, vehicle, and terrain.

Attention ski resorts!

Got new drivers on your team?

Send them to us before they hit the slopes!

We won't turn beginners into pros overnight – but we'll equip them with the **confidence, knowledge, and respect** they need for the machine and the mountain.

This training is available as a **theory module**, **hands-on session**, or an **effective combination of both** – and can also be **bundled with other service packages**.
