SLOPE EXPERTS

Professional Slope Grooming – Advanced Training for Experienced Snowgroomer Operators

Turning professionals into experts.

Slope quality starts with the operator –
that's why we strengthen your team with hands-on expertise,
right in your ski resort and using your own machines.

Optimize your slope operations – with outstanding quality, impartial know-how, and cost control you can feel.

Throughout the winter season, snowcat operators face a wide variety of challenges: different types of snow, shifting weather conditions, and diverse operational demands. Properly preparing your team is crucial – both for **guest safety** and for the **economic efficiency of your entire ski resort**.

Our advanced course “**Professional Slope Grooming**” is specifically designed for **experienced operators** and offers high-level, **manufacturer-independent training**. The content is based on proven methods, up-to-date industry standards, and the real-world demands of daily operations – regardless of vehicle brand or model.

The course is structured into **three modular training phases**:

- ▶ **Pre-season training**
- ▶ **Mid-season training**
- ▶ **Post-season training**

Your benefits at a glance

- ✓ **Manufacturer-independent expertise** – suitable for all vehicle types
- ✓ **Optimized driving techniques** – lower fuel consumption and wear
- ✓ **Less reworking** – reduced personnel and equipment costs
- ✓ **Increased safety & quality** – happier guests and better reviews
- ✓ **Practical on-site training** – right in your ski resort and on your own machines

Each module can be **booked individually** or **as a complete package** – as a **theoretical course**, **practical training**, or a **highly effective combination of both**.
